

Rising Fifth Grade Summer Reading

During the summer, you need to choose "Good Fit" books, books on your level, from at least **three different genres**, and complete the **Genre Reflection** chart.

Your first assignment, due the **first day of school**, is to bring your reading log and **Genre Reflection** paper to turn in to me. We will use them for our kick-off project during the first week of school.

Completely Optional: You may join the [Central Rappahannock Library's summer reading program](#). Through it you can keep track of your reading time and earn digital badges and prizes for fun!

I can't wait to discuss the adventures embarked upon in your reading!

Take care,
Mrs. Mann

First and Last Name _____

Genre Reflection Chart

In literature, a genre is a specific category of writing. You must choose **at least three** different genres to read. After you have finished each book, record the genre, title, and author below. Then, in the circle to the right, respond by rating each **genre** (#1 is your favorite, #2, #3, etc), and describe each book with one word (exciting, boring, confusing, etc). Check out your genre choices [here](#).
